Web Developer Summary

Solution-oriented Web Developer with 5+ years of experience creating user-focused digital experiences. Proficient in HTML, CSS, JavaScript, and frameworks like React and Vue, with expertise in developing and optimizing websites and web applications using clean code and performance-driven practices. Adept at collaborating with teams, troubleshooting issues, and ensuring cross-platform functionality, with a proven track record of enhancing usability, improving efficiency, and delivering scalable, user-friendly solutions.

Professional Experience

Ckreativ - Imbituba, Brazil

Software Engineer

March 2022 - September 2024

- Contributed to the success of over 25 businesses by enhancing the reliability and usability of an ERP platform through continuous improvements to UX and maintenance, utilizing a comprehensive technology stack including Vue.js 2-3, Laravel 8-10, Bootstrap, Git, MySQL, Nginx, and AWS EC2 to deliver scalable and impactful solutions.
- Led the development of an AI-powered chatbot designed to answer natural language questions in under 50 seconds, leveraging databases with over 7 years of business knowledge. Implemented solutions adhering to ethical standards with a robust stack comprising Nuxt.js/Vue.js, TypeScript, Python, Laravel/PHP, TailwindCSS, Docker, LangChain, Dataherald, AWS EC2, AWS Lambda, Nginx, MongoDB, and GitHub Actions.
- Boosted sales conversion efficiency by 40% through the design and improvement of a UX-focused B2B application used by over 500 professionals across 4+ states. Enhanced adoption rates by simplifying user onboarding and reduced support ticket volumes by 80% through a high-quality stack including Flutter/Dart, Figma, Material Design System, Git, Xcode, App Store, and Play Store.
- Increased client acquisition efficiency by 15% by streamlining a SaaS billing platform integration with Stripe. Utilized a technology stack emphasizing scalability and efficiency, including Vue.js, TypeScript, Vitest, Laravel, AWS RDS, AWS Amplify, SQLite, and MySQL.

Brick Abode - Florianópolis, Brazil

Technical Content Producer

November 2019 - March 2021

- Assisted in developing advanced audiovisual production workflows and managed high-performance recording hardware, reducing post-production time by 80% and improving the technical quality of delivered materials.
- Led the development of a streamlined production line for over 200 freelance project videos, focusing on individual recording setups. Efficiently structured workflows including camera configuration, high-quality audio capture, green screen utilization, and professional lighting.
- Collaborated with the team to implement Python-based automation for editing and direct uploads via YouTube API.

GETMORE - Florianópolis, Brazil

UI Designer

March 2019 - September 2019

- Specialized in UI design, developing high-complexity wireframes and prototypes for key clients such as YALO, accelerating the approval process by 25%. Designed e-mail marketing layouts for major brands like Unilever and Banco Next, contributing to a 15% increase in campaign conversion rates.
- Acted as a design generalist, creating over 30 presentations and layouts for print and digital media, optimizing internal and external company communication, and improving team engagement by 20%.
